Interest rate for late payments in commercial transactions remains unchanged

For the second half of the year 2019, the interest rate for late payments in commercial transactions will remain at 8.0%.

For interest in the past (prior to 16 March 2015) a distinction is still made between contracts concluded prior to 16 March 2013 and contracts concluded, renewed or extended as of 16 March 2013. This distinction derived from the amendment of the Act of 2 August 2002 that had increased the reference interest rate. Only since 16 March 2015 have the interest rates for contracts concluded prior to 16 March 2013 and for contracts concluded, renewed or extended as of 16 March 2013, been identical, being the moment when the transitional period expired (art. 14, 2nd paragraph of the Act of 2 August 2002).
